FSSC

FSSC ON-SITE – LAUNCHED Q1

➢ **Why**
- Provide real-time access to public register on validity and actively retrieve certificate status of FSSC 22000 certified organizations

➢ **Features**
- Select your certified organizations
- Receive active updates on Certification Status
- Create an API to support data integration

➢ **Target Group**
- Any organization that is interested in real-time information on FSSC 22000 certification
- Supply Chain / Procurement
- Retail / Service Providers

YELLENGE 2

What is your view on data sharing?

OPEN-UP - IMPACT
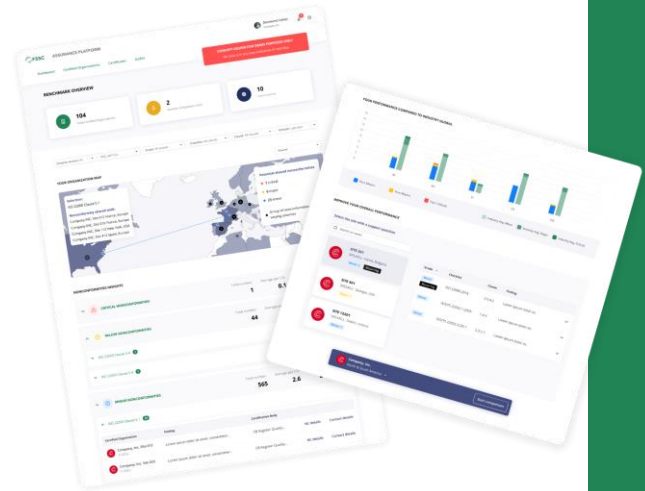

FSSC

FSSC IN-SITE

- ➤ **Why**
  - Actively manage/monitor the performance of your own certified facilities
- ➤ **Features**
  - Create Dashboards
  - Review Non-conformities
  - Easily Accessible Data/Review Trends
  - Benchmarking sites to FSSC database
- ➤ **Target Group**
  - Brands with > 5 certified organizations

FSSC

FSSC DATA SHARING VALUE CHAIN
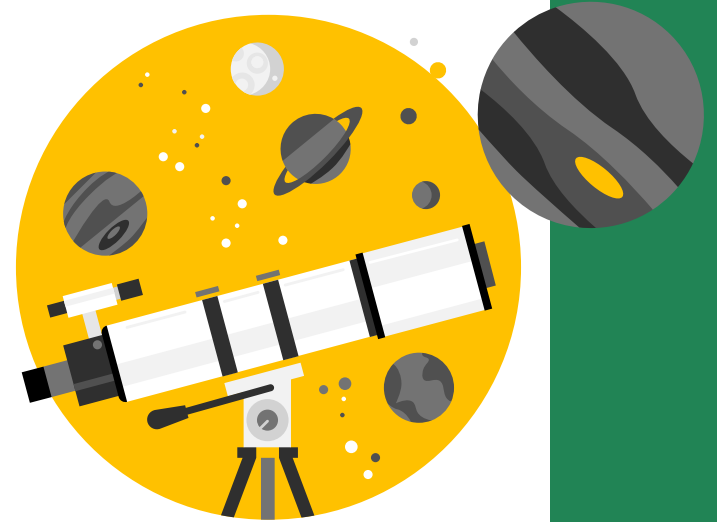

FSSC OUT-SITE

➢ **Why**
- Supply Chain Transparency / Performance
- Interactive Data Exchange

➢ **Features**
- Certified Organizations can actively provide access to externals on their performance

➢ **Target Group**
- Supply Chain Actors
- Procurement
- Retail
- Industry partners

Insights for Certification Bodies:

WHAT DO YOU NEED?

FSSC

THE YUM! BUSINESS CASE

INTRODUCING YUM!

World's largest Restaurant Group operating more than 50,000 restaurants

Operating in 150 countries with 1.6m team members

Working with more than 6000 suppliers around the world

Serving up 'Trust in Every Bite' to millions of customers every single day

FSSC

YUM! SUPPLIER REQUIREMENTS

THE CRITICALITY OF DATA TO YUM!

Public Certification Data:
All the data available on the FSSC Certificate and the Public Directory (FSSC ON-SITE)
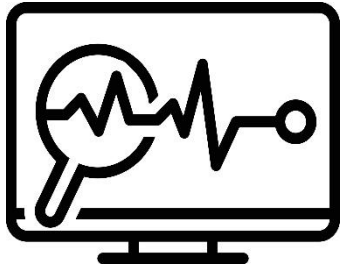

- Reducing our time spent administrating compliance
- Providing a live supplier status view for our teams
- Reducing the risk of falsified information
- Supporting Risk Management

Private Certification Data:
Detailed data from the FSSC Audit including Non-conformances and corrective Actions (FSSC OUT-SITE)

- Supports our understanding of supplier performance
- Enables our team to understand actions completed to support food safety
- Removes the requirement for additional Yum! 2nd party audits

FSSC

# HOW WE PLAN TO UTILIZE PERFORMANCE DATA

Risk and Performance Monitoring

Understanding Trends and Gathering Insights

Focused Education and Continuous Improvement Programs

Supports Continued Access to Supply

A tool to support and develop supplier relationships, not a tool to punish.

FSSC

BENEFITS AND CHALLENGES

Benefits

- Yum! will have the strongest view of supplier performance across all certified sites.

- Supplier data reduces the need for Yum! activities like 2nd party auditing.

- Allows Yum! to focus resources in the right places.

Challenges

- Yum! relies on suppliers granting us access to their audit data.

- Not all schemes have systems that have API functionality, like the FSSC system.

- So much data relies on significant work to identify insights.

We need to be clear and upfront with suppliers on why we want access to their audit data and how we plan to use it. Data sharing should be a collaborative exercise with mutual benefits to suppliers.

FSSC

OUR PARTNERSHIP WITH FSSC

FSSC ON-SITE

- Yum! were early adopters and supported system trials prior to launch

- Now, Yum! have an API connection between FSSC and our supplier management tool

FSSC OUT-SITE

- Yum! have committed to support FSSC with the co-creation of OUT-SITE

- We will be working with our existing supply base to request access to performance data

The development of FSSC IT capability significantly increases our ability to support FSSC 22000 implementation in our supply base and is a critical element to Yum!'s evolving supplier management program

FSSC

ROUNDTABLE DISCUSSION YELLENGE 4

What is the role of the Certification Bodies and Accreditation Bodies in sharing data?

➢ **Please present the 3 key outcomes per roundtable**
➢ **10 minutes to discuss**
➢ **Appoint 1 representative per table**
  • **Present outcome in Yellenge**

FSSC

THANK YOU

FSSC
